Registering Adjustment by Approval

Students may enroll in any course during the first three weeks of the semester if he has the permission of the instructor of the course and the approval of the dean of the college in which he is registered.

ALL CHANGES in registration or dropping classes, must also meet with the approval of the student's adviser, the instructor, and the dean of the college in which he is officially placed.

Changes in the students official record will begin Wednesday in the Center. A student may add up to a class per week of charge Monday, Thursday, or Friday (beginning Monday a late fee of \$1 per class will be charged).

CHANGE in registration will be made only if the adviser, instructor (s), and dean agree that change is advisable. Withdrawals after Oct. 9 are made for money or unusual circumstances only.

To make a change in registration a student must first obtain the permission of the instructor, and the registration personnel at the Center and then consult his adviser.

THE ADVISER recommends the change and signs the change of registration card. The change of registration card is then returned to the registration personnel within 10 days from the time the card is originally issued.

ANY PERSON dropping a class following the initial withdrawal must also add another class in the College of Religious Instruction or present a written statement from the dean of the College officially excusing him for that semester.

Students who register for either a first or second block plan classes must also register for the regular late registration period. To make a late must do so by Oct. 9.

History 170 Class Changes Lecture

In order to permit students in the 11:10 a.m. section 5 class of History 170 to attend the address William E. Miller, GOP Vice Presidential nominee, the class will be rescheduled at 4 p.m. in the Fine Arts Concert Hall in the Fine Arts Center.

ACCORDING TO Dr. Richard Hall, instructor of the closed-circuit television taught class, there will be no change in the 11:10 a.m. section 5 class.

Students cannot make the lecture repeat they should attend the 11:10 a.m. section 5 lecture.

Shown with his family is Republican vice-presidential candidate William E. Miller. From left: Stephanie, Mary Karen, William E., Jr., Mrs. William E. (Stephanie) and Elizabeth Anne. Rep. Miller will speak Wednesday, 1:40

More Parking Spaces Available On Campus

Over 800 more parking spaces will be available on campus for student parking by October 20. The parking lot north of the Fine Arts Center will hold 700 cars and the Y Center parking lot will have the capacity for 100 cars, according to Capt. Sven Neilson.

STUDENTS AND FACULTY are assured of parking facilities on campus this year with an estimated 7100 to 9000 cars on campus this year.

There were 665 students notified that they would not be allowed to drive on campus this year because of previous violations received.

THIS YEAR traffic violations will be run on a point system reaching a maximum height of 20 points. This will equal between four and five citations. A parking citation will cost \$2, a moving citation will be \$5, and a speeding citation will be \$5 plus \$1 for every mile over the limit.

The library parking lot has a 20 minutes limit zone on the east side of the bookstore patrons with the rest of the lot for faculty. This will be heavily enforced.

THE Y CENTER canopy is for passenger unloading only with no parking at any time. The parking area west of the Fine Arts Center is for the faculty with the large lot north for student parking when it is finished.

ALL STUDENTS must have a Utah driver's license within 60 days if they will be doing any driving at all. Parking permits will be needed on all cars that are parked in on-campus housing lots. Bikes must be licensed and parked in racks.

Traffic fines are really needless while there are still Utah Driver's Handbooks available and students are interested enough to want an extra financial burden.

ALL CITATIONS are payable at the cashiers office in the Administration Bldg.

The 38 men and one woman who compose our security force on campus are all members of special city officers and deputy sheriffs.

William E. Miller Arrives In Utah For Planned Visit

Rep. Miller's chartered plane will arrive at the Ogden airport from Idaho Falls at 10:30 a.m. Wednesday.

Following a rally in downtown Ogden Rep. Miller will proceed to Salt Lake City by motorcycle.

Following the stopover in Utah the Republican nominee will board his plane at the Provo Airport for a continuation of his 12-day campaign swing through the midwest and far west. Accompanying Mr. Miller on the tour are newsmen representing the major newspapers in the nation.

Word was received from the State Republican Headquarters Tuesday that Mrs. William E. Miller will not be in the party with Mr. Miller, GOP vice presidential candidate, when he addresses the BYU student body and the citizens of Utah County at 1:40 p.m. in the Smith Fieldhouse.

The 40 minutes major political address in the 12,000 seat fieldhouse was planned under the direction of Robert Ebert, Utah County Republican Chairman.

The BYU Services Division of

the audio-visual department has taken to feed to the Columbia Broadcasting Affiliates throughout the intermountain west to use on their afternoon and evening newscasts Wednesday and their Thursday morning newscasts.

The address will also be relayed over KBYU-FM radio at 8 p.m. Wednesday.

The address, part of a four hour visit in Utah, will be made after a reception and luncheon at the Hotel Utah in Salt Lake City. Mr. Miller was elected to the GOP Congressional Campaign Committee Chairmanship in 1960.

After graduating from the University of Notre Dame and Albany, N.Y., Law School and served as U.S. Commissioner for Western New York State.

In 1950 he was elected to Congress from the Western N.Y. State District and at present serves as a member of the Judiciary Committee.

House Orders Investigation Of Department

Washington (AP)—A Congressional investigation of the Justice Department, spurred by complaints made by the Teamsters Union, was ordered Tuesday by the House Judiciary Committee.

But Chairman Emanuel Celler, D-N.Y., said he will do his best to see that the inquiry does not touch on the case of Teamsters President James R. Hoffa, whose conviction on jury-tampering charges is awaiting appeal.

The Teamster Union has been exerting heavy pressure on committee members since Hoffa's conviction last spring. It charged the Justice Department and former Atty. Gen. Robert F. Kennedy with violating Hoffa's constitutional rights by spying on him and his attorneys and witnesses during the trial in Chattanooga, Tenn.

Although the Resolution ordering the investigation made no mention of Hoffa, Celler told newsmen "This might be called the Hoffa Resolution. Nobody asked for it except those involved with the Teamster Union. It had not been for their agitation, there would be no investigation."

The resolution was approved by a vote of 20 to 13, with 22 Democrats and 8 Democrats favoring it and 1 Republican and 2 Democrats opposing it.

It was offered by Sen. William McCulloch, R-Ohio, as a substitute for one that specifically called for an investigation of Hoffa's case and set a time for the investigation to be completed.

No time is mentioned in McCulloch's resolution, and Celler indicated he will be in no hurry to begin. He noted that most of the members will be busy campaigning until election day. Although the investigation will expire with the seating of a new Congress next January.

Celler also said he will oppose any attempt to include pending cases in the investigation, although an attempt to write such a ban into the resolution was defeated 17 to 16. The effort was aimed at blocking action on the Hoffa case, which is due to be heard in appellate court in December.

Joseph Smith Bldg . . .

Construction Work Causes Changes In Class Schedule

Due to the construction in the Joseph Smith Memorial Building the department of Undergraduate Studies in Religion has made the following room changes:

Campaign Corner

Johnson

Atlantic City, N.J., (AP)—President Johnson promised the nation today a cut in excise taxes and warned of "those who rave and rant about the dangers of progress."

"We will not permit federal revenues to become a drag on our economy," the President told the nation's steelworkers in reference to an excise tax cut.

Johnson spoke to the 12th biennial convention of the United Steelworkers of America in Convention Hall, the place where he was nominated for President last month.

He said his administration would help the poor, the helpless and the oppressed of the nation through a program of medical care for the aged under social security, through strengthened unemployment compensation and minimum wages, and through fair, just and equal opportunity for all Americans.

"We will do all these things because we love people instead of hate them," Johnson said, departing from his prepared text, "because we have faith in America, not fear of the future, because you are strong men of vision instead of frightened crybabies; because you know it takes a man who loves his country to build a house instead of a raving, ranting, demagogue who wants to tear down one."

The President also warned the steelworkers to "beware of those who fear and those who doubt and those who rave and rant about the dangers of progress."

"Beware of those who say 'don't touch this,' 'leave that alone!'"

Goldwater

Odessa, Tex., (AP)—Republican presidential nominee Barry Goldwater carried his conservative to Texas Tuesday and charged the Democrats stumbled into it was in South Viet Nam they do not know how to end.

He made these other charges:

That defense secretary Robert McNamara is trigger happy and has recklessly committed the United States to war in Viet Nam.

That President Johnson is using files of the internal revenue service to coerce persons.

That Johnson's vice presidential running mate, Sen. Hubert H. Humphrey, wants to do away with the oil depletion tax allowance.

That medicine for the aged would bankrupt the Social Security System.

He spoke to 8,000 persons in Tulsa in a light rain and to 6,500 in Amarillo in bright sunshine.

"They have lost the peace," Goldwater declared of the administration on a speech prepared for delivery here. "... and what does my opponent have to say?"

"He says: 'Let us continue.'"

Goldwater said President Johnson's urging means:

"Let us continue losing our sons and grandsons in a war thousands of miles away—a war this administration has stumbled into and does not know how to end."

Goldwater did not offer proposals for handling the Viet Nam or Cuba situations.

Traffic Mixups Often Caused By Slow Cars

Washington, (AP)—An automobile traveling 40 miles an hour on a highway is just as likely to be involved in an accident as another vehicle whizzing along at 80.

This conclusion was reached by Bureau of Public Roads Experts in an accident study released Tuesday.

The report challenges a widely accepted theory that the chances of an accident increase in proportion to the rate of speed. Instead, the Bureau said, the key factor is the difference between a vehicle's speed and the average speed of other traffic moving in the same direction.

Thus, the example of automobiles traveling 40 and 90 miles per hour carries the assumption that the average speed is 60.

The research was carried out primarily on two and four-lane highways through rural areas.

The study indicates that the chances for an accident of a car going at 20 would be sharply higher than either the 40 m.p.h. or the 80 m.p.h. vehicle.

The death rate is highest at very high speeds, but it was found that the lowest fatality rate was at average speeds.

Other conclusions in the report included:

Automobile drivers under age 25 and over 65 are more likely to be involved in accident than other drivers.

The accident rate for automobile drivers is three times higher than the rate of drivers of large trucks at night, but there is little difference between the two groups during the day.

Older, low-powered automobiles were involved in accidents more often than newer, high-powered cars.

Almost half of all accident involved either rear-end collisions or sideswipes involving two cars moving in the same direction.

At high speeds, a larger proportion of accidents involved only one vehicle.

Warren Report Set

Washington, assassination report (AP)—The Warren Commission report on the assassination of President John F. Kennedy will be released for use by newspapers, television, radio and other media at 5:30 p.m. EST Sunday, the White House announced.

Press Secretary George Reedy announced the release hour at a briefing attended by about 150 newsmen.

Hurricane Gladys May East, Threatens Coasts

MANTEO, N.C., (AP)—Hurricane Gladys, a category 4 storm, was spinning at 85 miles an hour, lumbered northward toward the Atlantic coast of the United States.

High tides sent rough sea water across sand dunes and 24 inches of water in the village of Hatteras, N.C. indications some of the man-made sand dunes, which previous storms had broken through the bankings washed away.

The Weather Bureau placed Gladys, sixth in a series of hurricanes this season, near latitude 34.3 north, longitude 72.1, about 210 miles slightly south of due east from Cape Hatteras, N.C.

Her hurricane winds extended outward about 400 miles from center. Gale winds extended about 400 miles north and coastal areas to the north of the center and 200 miles to the south.

Forty Instructors Return To Campus To Pursue Advanced Assignments

President Earl C. Crockett announced today that forty professors and instructors have returned to Brigham Young University from pursuing advanced assignments from special assignments.

The returning faculty members are:

James D. Ashton, associate professor of horticulture, returned from leave as agricultural attaché at University of Tehran.

Walter H. Hoopes, associate professor of animal science, graduate work at University of Nebraska.

Stephen L. Wood, associate professor of zoology and entomology, returned from British Museum.

Paul F. Herde Jr., accountant in charge, auditor for Arthur Andersen & Co.

Clifton L. Oaks, business management professor, director of administrative services, business dynamics in Louisiana.

Weldon J. Taylor, dean of college of business and market research, consultant for National Institute of Management Development of United Arab Emirates.

Edna E. Allred, laboratory teacher, graduate study at Iowa State University.

Dean C. Christensen, professor of secondary education, dean professor at American University of Beirut, Lebanon.

A. John Clarke, professor of education specialist for Department of Education in Iran.

Delva Daines, elementary school associate professor, dean team member for public systems in western United States.

Ross Hilton, Laboratory School teacher, doctoral study at Colorado State College.

Dr. Glen P. Ovard, associate professor of educational administration, director of curriculum and supervisor of senior high schools for Alpine School District.

Dr. Ray T. Wilcox, assistant professor of secondary education, study at University of Chicago.

Dr. Robert M. Cundick, associate professor of music, organist in Hyde Park Chapel.

Dr. Crawford Gates, music professor, director and conductor of Beloit Civic Symphony, Inc. in Beloit, Wis.

Lynn A. McKinlay, assistant professor of communications, study at University of Hawaii and part-time teaching at LDS Church College of Hawaii.

Reid Nibley, assistant professor of music, study at University of Michigan.

Max E. McKinnon, industrial arts assistant professor, study at Arizona State University.

Zane G. Allier, English assistant professor, study at Arizona State University.

John B. Harris, English assistant professor, taught at Wayne State University.

Dr. Paul V. Iyer, associate professor of history, study at Tokyo Banko Research Center, University of Kyoto.

Hans-Wilhelm Kelling, assistant professor of languages, doctoral research at University of Göttingen, Germany.

Dr. Wilford E. Smith, sociology professor, taught at LDS Church College of Hawaii.

A. Norton Chaston, assistant professor of electrical engineering, research for Southern California Edison Company.

Dr. E. John Eastmond, physics professor, research for Plasma Research Laboratory, Aerospace Corporation, Los Angeles, Calif.

D. Allan Fritzsche, civil engineering professor, consultant on India Project at Madras University, Poona, India.

Dr. John B. Gardner, physics professor, staff of Space Technology Laboratory.

Barton C. Geo, assistant professor of mathematics, study at Oregon State University.

Dr. Kenneth M. Larsen, assistant professor of mathematics, study at University of California at Los Angeles.

Dr. Howard C. Nielson, statistics professor, field manager C-E-I-R, Inc., Duwayway Proving Grounds.

Dr. William Revell Phillips, associate professor of geology, Fulbright Professor at University of Sindh, Hyderabad, West Pakistan.

Dr. Richard L. Snow, associate

professor of chemistry, study at Brown University.

Dr. Albert D. Swensen, chemistry professor, visiting scientist at Charles F. Kettering Research Laboratory in Yellow Springs, Ohio.

Phyllis C. Jacobson, assistant professor of physical education for women, study at Penn. State University.

Dr. Henry J. Nicholes, health and safety education professor, research physiologist for United States Army at Fort Douglas, Utah.

Edwin Ricks, assistant professor of religious instruction, study at Dropsie College.

Phileas B. Robinson Jr., Provo campus programs coordinator, study at University of Nebraska.

Robert H. Teichert, staff assistant to dean of Continuing Education, study at Northwestern University.

Alan R. Anderson, counselor in Counseling Service, counselor at University of Colorado.

Lynn A. Ravsten, psychology instructor and counselor, study at Stanford University.

Secretary Rusk Lands Safely At Utah Base

Hill Air Force Base, Utah (AP) Secretary of State Dean Rusk's Air Force Jet made what the Air Force called a "safe precautionary landing" at this Northern Utah base at 4:30 p.m., Tuesday.

THE SECRETARY was flying back to Washington from San Francisco in a C-140.

The Air Force spokesman said the plane had "minor mechanical trouble" in the landing gear system—not the engines—and that no trouble was encountered upon the landing.

But he said Rusk and his aides would stay overnight and take another plane back to Washington early in the morning, instead of his originally scheduled arrival time in Washington of midnight tonight.

'What To Wear' Query Pops Up Again In Fall

Casual Dress — Sport Dress — School Dress —

What to wear to a dance when the sign advertises one of the above forms of dress! This presents a perplexing problem who reach type of dress considered separately has its own individual meaning. Yet, when used to designate the type of dress worn to a dance, they all have about the same definition.

Any young coed will besure to make a hit, fashionwise, if she selects one of the season's favorites—a jumper. Teamed with a sissy blouse of cotton or nylon crepe, the low-slit V, traditional scoop or conventional square necklined jumper will put you on the top of the fashion list.

A long-time favorite, the wool sheath is scoring another hit this fall. The tailored look, the simple style, or one trimmed with a bit of elegance gives a variety of styles.

Almost a must on the college campus is the wool skirt and sweater. When worn with flats and nylons any coed is sure to look her best.

The dark print or plaid shirt-waist dress has long been a welcomed addition to the coed's wardrobe. This versatile dress would be ideal for a Friday night dance.

Wartime Comedy Will Be Shown

A wartime comedy depicting combat on a South Seas island will be shown this week as part of the Film Favorites series, "Don't Go Near The Water" stars Glenn Ford and Keenan Wynn.

Showtime are Wednesday and Thursday at 4, 6 and 8 p.m., and Friday and Saturday at 4, 6, 8 and 10 p.m. Admission is 25 cents plus activity card.

WHY WE CARRY GANT

There's more than fabric superiority in Gant. In addition, "needled-into the warp and woof of every Gant shirt"—there's flair-fit show—three vital invariants that make all the difference when a man wears a Gant.

We chose Gant because they take shirt making seriously. They're hard to please (like we are) when it comes to fit of collar, its roll, its profile—how much it shows above the suit collar. They're fastidious about the way the body of the shirt drapes and folds. All must integrate to achieve that viable ingredient which gives comfort and aplomb. In substance, Gant shirts are keyed to the discerning tastes of well groomed men who appreciate quality. These men are our customers.

I. B. M. KEY PUNCH CLASSES

These noncredit courses have been designed to provide the training and instruction required by jobs in business, education and industry in key punch operation.

Classes will meet two times a week for eight weeks.

New sections will be opened at different times during the year.

The fee of \$23.00 includes all lab facilities and materials.

First Session will begin Thursday, September 24.

For information on registration contact the Office of Special Courses and Conferences, Ext. 2411 or 2764.

Recipe Versatile...

Soup'n Sandwich-Great For Lunch

There comes a soup 'n sandwich lunch that tastes every bit as good as it looks. And best of all, it's versatile. The basic recipe for the soup can be varied in half a dozen different ways to make a new soup for the lunchbox every day of the week.

During these hurried days of getting to class, to the library early or to work, a person needs a hearty lunch in order to get his best.

A hot soup break in the middle of the day will supply the needed vitality to sustain your appetite through the afternoon, whether eaten at home, or taking it to the campus in a thermos, it's great.

Make Lunchbox Creamy Soup in quantity and heat up a cupful each day, adding diced vegetables or meats to give it new flavor. It's a delicious buttery milk soup "as is" but the different

vegetables and seasonings make each day's portion different tasting. Stir crisp bacon bits into the soup, or flavor it up with diced cooked celery, potatoes, peas or corn.

The sandwiches are unusual too. This Carrot Egg Salad Sandwich has no ordinary filling, but a crunchy, extra-flavorful one. It's spiced with dairy sour cream, mustard and pickle relish. Chopped carrot adds crunchiness to the egg salad mixture.

Spread this tasty filling on either white or whole wheat bread, or mix both in one lunchbox for variety. Complete a well-rounded lunch with an apple to munch and a cupcake for dessert. Youngsters or grownups will relish this tasty carry-along lunch and get ample nourishment from it.

Lunchbox Creamy Soup

Heavy saucepan, 1 qt.

Yield: 3 cups

1 cup (1 stick) butter

3 tablespoons flour

3 cups milk

1 teaspoon salt

1 teaspoon pepper

In saucepan melt butter; add flour mixing to a smooth paste. Remove from heat and add one-half of the milk, stirring until blended. Return to heat and stir constantly until mixture begins to thicken. Add remaining milk. Heat to simmering point; cook about 5 minutes. Stir in salt and pepper. Pour into thermos.

Carrot Egg Salad Sandwich

Yield: 1 cup filling

3 hard-cooked eggs, chopped

1 cup shredded raw carrot

2 tbsp pickle relish

2 tbsp dairy sour cream

1 tsp prepared mustard

1 tsp salt

2 slices white sandwich bread, buttered

2 slices whole wheat bread, buttered

In a mixing bowl toss together eggs, carrot, pickle relish, sour cream, mustard and salt. Assemble sandwiches allowing 1 cup filling for each. Match or mix the breads used in sandwiches. Cut sandwiches in half and wrap in moistureproof wrap.

24 NORTH UNIVERSITY

Mountain Climber Class Planned By Alpine Club

by Stan Hodge
Sports Editor

Every year students at western Universities tackle the mountains around them, often with little experience, less equipment, and all too often with disastrous results.

CLIMBING, HOWEVER, needn't be dangerous if proper techniques and equipment are used. It is for this reason that the BYU Alpine club is offering a four-week school in climbing to interested students, according to Allen Sampson club president.

Registration for the class to be held the first four weekends in October will be at the Alpine Club Openhouse Wednesday at 7:30 p.m. IOC regulations will require that registration for the class be accompanied by Club membership.

The annual scenic hike up Timpanogas sponsored by the Alpine club will be held Saturday. The 12-hour hike will begin at Cannon Center at 6:30 a.m. All students are urged to bring a water supply and a lunch. It will be an excellent opportunity for camera bugs to photograph Utah valley in a full blaze of Autumn color. Those who own cars are requested to bring them.

ship. The openhouse will be held in 115 Smith Memorial Bldg.

VERN BUSH, an experienced climber, will instruct interested students in the basics of climbing safety, basic knots, rope techniques, care of ropes and climbing techniques. The class will enable potential mountain goats to learn to scale the cliffs in a safe manner and will provide a basis for them to branch out on their own in the future.

At the conclusion of the class the students will receive certification as 5th class climbers, denoting a mastery of technical climbing skills. In addition they will receive a card permitting them to check out club equipment for personal use.

THE ONLY FEES involved for the course will be \$1.00 per day which will include a lunch. The purpose of the fee is to purchase more equipment for the club.

In addition to climbing the Club also works with hikers and skiers and sponsors the BYU Alpine Club Ski Racing team.

Sportswriters Nominate Soph Lineman

A BYU sophomore who tasted his first varsity action in the opener with Oregon was nominated WAC lineman of the week by press box staffers covering the game at Eugene.

Mel Olsen, 220-pound sophomore linebacker from Arton, Wyo., won the lineman vote for his outstanding defensive play. Olsen smashed through the Duck line several times to spill Oregon ball carriers at key points in the game. He was a bullwork in stopping the powerful Oregon defense.

Signal-Caller Aids Face-Lifting . . .

Carter Named Player Of The Week

by Roger McVein
Universe Sportswriter

There seems to be a new look at the game at BYU this year. Part of that face lifting can be attributed to the of sophomore quarterback Virgil Carter.

As a result of his fine play in a Saturday game with Oregon, Carter has been chosen as Player of the Week for the University. Carter has a interesting background, but it takes a lot of confidence to get it out of him. He was not only a basketball while in high school, but he was an All-Conference star for two years, but he also excelled in basketball and baseball. He has received similar honors in basketball for three years and baseball for two years. TUCKETT explains this success as a modest person would. "I don't want to be a star," he said. "I want to be a good player." He excelled in the classroom as well. He has a very fine way, by obtaining a 3.0 GPA during his prep years.

Last Saturday Carter played his first game as a varsity footballer for Brigham Young University. His performance was that of a veteran. He described his feelings prior to the game as nervous before the game as everyone else, but when we run a few plays everything changes. Carter's own statistics for the game show how well he performed at quarterback. He passed for 151 yards in four completions, two of these for touch downs. His final overall total score record showed 170 yards being and passing.

When asked about the chances of him team this year, he stated, "We have a very good chance to win a good showing this year we can get by Arizona in this

Saturday's game. We are in the race for the title all the way, and won't let up a bit. Of course you have to rate Utah on top now, since they defeated New Mexico last week."

"We play them one at a time though, and right now we're

looking at that game with Arizona. We are in good shape and feel all set to go. We may open up our offense a little, with a few passes when they expect a run, but we should play primarily the same type of game that we played last week."

Frosh Coaches Pleased With Kitten Grid Eleven

by Dave FitzPatrick
Universe Sportswriter

Just three days into practice, BYU's freshman football squad, under the guidance of Glen Tuckett, is already showing signs of becoming a truly excellent unit.

TUCKETT and HIS STAFF very impressed several players of this year's frosh contingent and, although characteristically pessimistic about the season ahead, don't seem to be worrying too much.

Last year's freshman squad, with hot-handed QB Virgil Carter at the helm; compiled a 3-1 slate and this time around several bright new stars loom to push the squad to even greater glory. Quarterbacks Hank Marcado and Steve Bushore have shown some fancy maneuvers in the opening practices.

FULLBACK DAVE SWANSON and halfbacks Doug Flury and Bob Roberts likewise have been kicking up their heels in the

backfield. Linemen who have shown considerable promise in the first few outings are Jerry Cook and Terry Webster (guards), and Tackles Guy Winkler and Brent Olson.

A pair of ends who have impressed everyone with their pass-catching antics are Ted McLaren and Don Denton.

AIDING TUCKETT his duties with the squad are Wayne Startin, Ray Eyre, Carl Bunker, Bob Barow, Jack Linder and Bill Nelson.

The 1984 freshman football schedule is as follows:

Oct. 23—Utah Frosh . . . Home
Oct. 30—Utah S. Frosh . . . Away
Nov. 6—Air Force Frosh . . . Home
Nov. 13—Utah Frosh . . . Away
